PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Very late planting of aged seedling in rice suffered from yield loss and affect the production so it is must for scientists to fix the proper time of transplanting with young seedling to improve in crop yield and remuneration.	In this experiment, we compared optimum seedlings with aged seedlings in combination with different transplanting dates. We also examined the effect of foliar nutrition to compensate for any losses
Is the title of the article suitable? (If not please suggest an alternative title)	No Because only growth data included, not any development data	I have changed the title name
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Is the manuscript scientifically, correct? Please write here.	on the basis of only growth data there is no more value of this manuscript	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Few missing in reference..add it	Correct
Is the language/English quality of the article suitable for scholarly communications?	Poorly written. So many poorly written sentences correct it.
