Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The manuscript addressing the constraints faced by dairy farmers in Andhra Pradesh in using ICT tools is crucial for the scientific community as it highlights the barriers to the adoption of modern technological advancements in agriculture, specifically in the dairy sector. Understanding these constraints—such as lack of infrastructure, digital literacy, and access to reliable internet—can inform policy decisions and lead to targeted interventions that can improve the adoption of ICT tools. The findings from this study can contribute to the development of tailored solutions that bridge the gap between technology and rural farmers, ultimately enhancing productivity, sustainability, and income levels in the dairy farming sector. Furthermore, this research provides valuable insights that can guide future studies on technology adoption in agricultural systems in other regions with similar challenges.	ICT has come across several sectors including Agriculture and allied sectors. Since I have highlighted the major constraints faced by dairy farmers in using ICT tools. The extension personnel, policy makers etc can look into this and plan their activities and actions.
