

Review Form 3

Journal Name:	Microbiology Research Journal International
Manuscript Number:	Ms_MRJI_129496
Title of the Manuscript:	Probiotic Products: Appropriate Technologies for Control of Infectious Animal Diseases in the Face of Climate Change and Anti-Microbial Resistance
Type of the Article	Review Article

PART 1: Comments

	Reviewer’s comment	Author’s Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Hello, it’s a good work, but the references are not up to date. At least the references should be within the last 10 years. Microbial work is becoming more diverse year by year. The purpose of writing the article is not clearly stated, and the purpose is not clear in the text.	Thank you for this comment. Corrections have been made by clearly stating the purpose (objective) of the article both in the abstract and introduction.
Is the title of the article suitable? (If not please suggest an alternative title)	yes	Thank you for this comment.
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract should be strengthened and rewritten.	Thank you for this comment. Corrections have been made by strengthening the abstract and rewriting it.
Is the manuscript scientifically, correct? Please write here.	yes	Thank you for this comment.
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References should be updated.	Thank you for this comment. In order to improve the quality of the manuscript, recent references particularly Salam <i>et al.</i> (2023), Ahmed <i>et al.</i> (2024), Nechitailo <i>et al.</i> (2024), and Oliveira <i>et al.</i> (2024) have been included in the last paragraph of the introduction section; Alp and Kuleasan (2020) has been included in section 4.1; Luan <i>et al.</i> (2019), Urakawa <i>et al.</i> (2022), and Wang <i>et al.</i> (2023) have been included in section 4.4; and Luan <i>et al.</i> (2019) and Nii <i>et al.</i> (2019) have been included in section 4.5.
Is the language/English quality of the article suitable for scholarly communications?	yes	Thank you for this comment.
Optional/General comments	Hello, it’s a good work, but the references are not up to date. At least the references should be within the last 10 years. Microbial work is becoming more diverse year by year. The purpose of writing the article is not clearly stated, and the purpose is not clear in the text.	<p>~ In order to improve the quality of the manuscript, recent references particularly Salam <i>et al.</i> (2023), Ahmed <i>et al.</i> (2024), Nechitailo <i>et al.</i> (2024), and Oliveira <i>et al.</i> (2024) have been included in the last paragraph of the introduction section; Alp and Kuleasan (2020) has been included in section 4.1; Luan <i>et al.</i> (2019), Urakawa <i>et al.</i> (2022), and Wang <i>et al.</i> (2023) have been included in section 4.4; and Luan <i>et al.</i> (2019) and Nii <i>et al.</i> (2019) have been included in section 4.5.</p> <p>~ Corrections have been made by clearly stating the purpose (objective) of the article both in the abstract and introduction.</p>
