

Review Form 3

Journal Name:	Microbiology Research Journal International
Manuscript Number:	Ms_MRJI_130659
Title of the Manuscript:	Assessment of Synthetic Food Dyes, Carmoisine and Tartrazine, on Gut Microbiota of Albino Rats
Type of the Article	Original Research Article

PART 1: Comments

	Reviewer’s comment	Author’s Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Microbial flora is very important for both man and animal life. The significance of this manuscript has focused on the importance of micro biota and its efficacy of health. Scientifically has been proven its requirements. As my opinion the analysis of this manuscript may give the light of knowledge about the existence of acceptable number of normal flora.	Thank you for mentioning the importance of the manuscript.
Is the title of the article suitable? (If not please suggest an alternative title)	The title of this manuscript is pretty ok but it would be more better if add Experimental word, like “Experimental Assessment of Synthetic Food Dyes, Carmoisine and Tartrazine, on Gut Microbiota of Albino Rats”	Thank you for the suggestion.
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, the article is comprehensive. I suggest some strong words may be added to the conclusion part of the abstract.	Noted
Is the manuscript scientifically, correct? Please write here.	Yes, it is scientifically correct.	Thank you
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Sufficient	Thank you
Is the language/English quality of the article suitable for scholarly communications?	Yes	Okay
Optional/General comments	In my opinion, this experimental research work is vey auspicious to acquire the practical knowledge of food preparing and food hygiene. I personally comment on this manuscript is that this research work will be tremendously helpful for the gaining the knowledge about the consistency of microbial flora in the gut and the effects on the additive food colours of them.	Thank you for the appreciation.

PART 2:

	Reviewer’s comment	Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
