

Review Form 3

Journal Name:	South Asian Research Journal of Natural Products
Manuscript Number:	Ms_SARJNP_130215
Title of the Manuscript:	Preparation and characterization of some oxazolidine-5-one derivatives and evaluation of their biological activity
Type of the Article	

PART 1: Comments

	Reviewer’s comment	Author’s Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Manuscript is useful for another possibility of reactions or not for further research work but here i find lack of providing method in detail which is more important for the future research scholar. In manuscript, bioilgical activity was provided but in detail data was not given, i thik this is more required for future research.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, in the abstract name of derivtive written “oxazolidinone-5-one” that is not correct according to iupac. It should like “oxazolidine-5-one”. In the third line monitored and described by determing...meaning of the sentence not comleted. Fourth line, the completeness (should like the completion...). One more change is nedded that s. <i>Epidermidis</i> not <i>staph</i> .	Modifications have been made.
Is the manuscript scientifically, correct? Please write here.	Yes	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes, references should as gudiline of journal.	

Review Form 3

Is the language/English quality of the article suitable for scholarly communications?	Yes, but, if possible, make it more improve. Some sentenceses were not suggesting proper meaning.	
Optional/General comments	<p>Oxazolidine-5-one; in some sentences name wasnot correctly written. Method of scheme was not explained properly. Informations of instruments for data were not mention and also from where data were derived was not mention also. Bioilogy activty was not described. In references molecular formula was not written in formula form.</p> <p>INTRODUCTION Heterocyclic Chemistry Is One Of The Most Interesting Scientific Fields And Has Excellent Practical And One Of The Most Fascinating Scientific Disciplines, (MAKE SENTENCE CLEAR), Heterocyclic Chemistry Has Great (VAST) Theoretical And Practical Applications. To Sum Up, The Purpose Of This Work Is To Create New Five-Ring Compounds From Oxazolidinone-5-One By Reacting WITH Prepared Schiff Bases With AND Chloroacetic Acid While Dioxane Is Present As A Solvent. The Biological Activity Of These Compounds Against Two Different Kinds Of Gram-Positive And Gram-Negative Bacteria Will TO Be Assessed. IN 2.2 Preparation Part NAME OF DERIVTIVE WRITTEN "OXAZOLIDINONE-5-ONE" THAT IS NOT CORRECT ACCORDING TO IUPAC. IT SHOULD LIKE "OXAZOLIDINE-5-ONE". IN SCHEME 5 MINUTES WRITTEN WHILE IN DESCRIPTION 5 HOURS. CLEAR IT. Preparation Of Schiff Bases Was Not Described. The Mixture Was Raised...SENTENCE DOESN NOT SUGGESTING PROPER MEANING. IN 2.3 BIOLOGICAL ACYIVITY Instead Of The Amount Of Chemical Produced And Also MI Should Write. In Data Explanation Cm^{-1}, ^{13}C And ^1H Were Not Written. Table (2) Unit Was Not Written Which Is Necessary Part For All Data. Units Should Write With Proper Way Like MI But Which Were Not Written In Proper Manner. THE MOST IMPORTANT THE DATA LIKE FTIR, ^1H NMR, ^{13}C NMR AND ALSO ELEMANTRY ANALYSIS PERFORMED AT WHICH PLACE WAS NOT MENTION IN PAPER. FIGURE (7).... S. <i>Epidermidis</i>. THERE WERE SO MANY SENTENCES WHICH WERE NOT CPOMPLETED OR MEANINGLESS.</p>	Modifications have been made.
