### PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The article addresses an important issue but is full of important deficiencies. The biggest deficiency is the lack of a literature review section. Also, the abstract is very long. Some journals only allow this much for an introduction.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	So long... Shorter please	
Is the manuscript scientifically, correct? Please write here.	I didn't see the author's model... anywhere?	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	There are 2 paragraphs in the introduction written as a small literature section, but considering it as a literature review section would be an insult to academic studies. A literature review section is also necessary. It is important to use the following articles: <ul style="list-style-type: none"> <li>- <a href="https://doi.org/10.32479/ijeep.13707">https://doi.org/10.32479/ijeep.13707</a></li> <li>- <a href="https://doi.org/10.1080/23311886.2024.2448769">https://doi.org/10.1080/23311886.2024.2448769</a></li> <li>- <a href="https://doi.org/10.32479/ijeep.15903">https://doi.org/10.32479/ijeep.15903</a></li> <li>- <a href="https://so05.tci-thaijo.org/index.php/saje/article/view/265576">https://so05.tci-thaijo.org/index.php/saje/article/view/265576</a></li> <li>- <a href="https://doi.org/10.1080/23311886.2024.2448769">https://doi.org/10.1080/23311886.2024.2448769</a></li> <li>- <a href="https://doi.org/10.33818/ier.1264805">https://doi.org/10.33818/ier.1264805</a></li> </ul>	
Is the language/English quality of the article suitable for scholarly communications?	Fine	
<u>Optional/General</u> comments	However, it may be published if the caveats are heeded.
