Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	It is a case report	
Is the title of the article suitable? (If not please suggest an alternative title)	Suitable	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Comprehensive	
Is the manuscript scientifically, correct? Please write here.	Not correct	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	No comments	
Is the language/English quality of the article suitable for scholarly communications?	Suitable	
Optional/General comments	If symptoms are because of adhesion/incisional hernia, what is the necessity of hysterectomy unless it is complicated. Given the possibility of infection in gynaecological procedures, it is not wise to include cosmetic and hernia surgery with them. Hysterectomy is not a procedure without morbidity to consider it as casual	

Review Form 3
