Manuscript Number:	Ms_AJCR_130836
Title of the Manuscript:	Articular Silence: Acute Pericarditis Unveiling Still's Disease- Case Report and Literature Review
Type of the Article	Case report

PART 1: Comments

	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Adult onset Still's disease is a rare form of arthritis with very few worldwide cases each year. Patients suffering with this condition do not generally find a permanent cure. Therefore, it is crucial that any treatment with a favourable outcome be reported in literature so that physicians and other healthcare professionals can practice evidence-based medicine. This case report is an example of the same.	
Is the title of the article suitable? (If not please suggest an alternative title)	Existing title: Articular Silence: Acute Pericarditis Unveiling Still's Disease- Case Report and Literature Review Corrected title: Acute Pericarditis Unveiling Adult-onset Still's Disease- Case Report and Literature Review
