

Review Form 3

Journal Name:	Asian Journal of Education and Social Studies
Manuscript Number:	Ms_AJESS_129872
Title of the Manuscript:	The Legal Framework of Education in China: A Historical Overview
Type of the Article	

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	I think the subject is beautiful and directly impacts the social science community based on its real-world application to the subject as it stems from China's culture. The researcher applies a cross-disciplinary relevance (law, education, humanities) to name a few and impacts built on existing knowledge. Based on Chin's cultural law relating to education I find the paper very innovative and original and contributes to the social science avenues of modern research.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, the legal framework is used 8 times but in areas where the framework is designed into law for education.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, there are 8 parts in my opinion to an abstract which answers the research question of how the study is proposed, how the subject is researched, and what did the researcher do to approach the study topic while revealing the research findings at the bottom of the abstract.	
Is the manuscript scientifically, correct? Please write here.	With regard to the facts of science, the author does use the law in a sequence of events to illustrate the legal and historical impacts to China' education legal framework. The facts of science do not apply other than following the rules to conduct a study to discover not the laws of motion but the laws relating to lawful education.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes, there are a couple of years that are over 5 years but the source are original sources. All others which contribute to the body of the paper & subject are current sources specific to the topic.	
Is the language/English quality of the article suitable for scholarly communications?	Excellent in my opinion.	
Optional/General comments	<p>I do recommend ensuring the format is the same throughout. There are different fonts and styles used throughout headings.</p> <p>There are illustrations used on the reference page that should be removed. None of the current global writing styles require Diamonds, numbers, or marks before the authors names in a reference or cited works page.</p> <p>I recommend removing any personal pronouns unless its cultural ie., 5.2 heading starts with WE Private Education and Public Education. If WE represents the people of China I recommend that be removed.</p>
