<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	This manuscript is important as it highlights the chemical composition of <i>Solanum tuberosum</i> . This knowledge is useful when trying to know the various application of this plant.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	<b>Title not suitable.</b>  Authors may consider—Chemical composition of the oil of <i>Solanum tuberosum</i> extracted using- (put method of extraction here)	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	The abstract is scanty. It should follow the basic convention. Introduction, methodology, results and conclusion. The authors asserts that this plant can be used in cosmetics and pharmaceuticals. On what basis was this conclusion drawn? There was no bioassay to back this up	
<b>Is the manuscript scientifically, correct? Please write here.</b>	The manuscript is scientifically correct. But not adequate scientifically.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	Most of the references are recent, but references below year 2010 should be replaced..	
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	Yes	
<b><u>Optional/General</u> comments</b>	<b>Authors need to do a complete overhaul of this work to meet international standard. Literature is loaded with articles on this plant thereby making a chemical composition research inadequate. Also result presentation should be more scholarly as there are basically no need to include the mass spectrum of each components in the result section. The conclusion should also be re-written. Authors are advised use appropriate paraphrasing tool to enhance the written grammar.</b>
