

### Review Form 3

Journal Name:	<a href="#">Asian Journal of Research in Biochemistry</a>
Manuscript Number:	Ms_AJRB_130346
Title of the Manuscript:	Green Synthesis Of Metal Complexes Of Thiazole-Based Schiff Bases: A Review
Type of the Article	REVIEW ARTICLE

#### PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	This manuscript highlights eco-friendly synthesis methods for metal complexes of thiazole-based Schiff bases, offering sustainable alternatives to conventional techniques. It underscores their potential in pharmaceutical and industrial applications while identifying research gaps for future exploration in green chemistry.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	Sustainable Approaches to Synthesizing Thiazole-Based Schiff Base Metal Complexes: A Comprehensive Review	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	The abstract provides a good overview of the manuscript, highlighting the focus on green synthesis methods for metal complexes, advantages etc. But you can add specific applications, state the research gap, eliminate repetition.	
<b>Is the manuscript scientifically, correct? Please write here.</b>	YES, manuscript is scientifically correct.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	The references cited in the manuscript are relevant and span various aspects of green synthesis and thiazole-based Schiff bases. However, a significant portion of the references are dated prior to 2021, with only a few recent works included (2023 and 2024). Incorporating more recent references would help contextualize the findings within the current research landscape and reinforce the manuscript's impact.	
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	YES, Grammar corrections and language improvement can be done.	
<b>Optional/General</b> comments		

**Review Form 3**

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	

**Reviewer Details:**
