Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Saline soils are common in arid and semi-arid regions. Climate change affects these areas with increasing global surfaces; these conditions allow us to manage saline soils to optimize agricultural production. This study proposes a solution to manage saline conditions of one of the basic culture in areas affected by salinity.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is structured. It addresses the objectives of the study.	
Is the manuscript scientifically, correct? Please write here.	yes
