PART 1: Comments

	Reviewer's comment Artificial Intelligence (AI) generated or assisted review comments are strictly prohibited during peer review.	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The issue of citrus fruits use in peptic ulcer remained a conflicting concept since years so it is of value to study such concepts affecting large number of patients and to find alternative or at least supportive plant based treatment rather than chemical drugs with many side effects on long term use	
Is the title of the article suitable? (If not please suggest an alternative title)	Mechanism of protection of orange juice is not fully studied in this article so the suggested title is: Therapeutic Potential of Sweet Orange Juice in Ethanol-Induced Gastric Ulcers with Timing Consideration	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is comprehensive and well summarized	
Is the manuscript scientifically, correct? Please write here.	The manuscript is scientifically correct but the author should mention that H.pylori induced ulcer is different from ethanol induced ulcer in that it need antibiotics treatment in order not to confuse readers.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References are sufficient and recent
