Title of the Manuscript:	<b>Stability and Sustainability Indices and Mitigation Strategies for Water Conservation in relative to Fruit Crops</b>
Type of the Article	<b>Review Article</b>

**PART 1: Comments**

	<b>Reviewer's comment</b>	<b>Author's Feedback</b> <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	This manuscript is important for the scientific community as it provides a comprehensive evaluation of stability and sustainability indices for water conservation in fruit crops. It highlights the role of efficient water management practices, such as precision irrigation, drought-resistant crop selection, and soil moisture conservation techniques, in ensuring long-term agricultural sustainability. By integrating ecological, social, and economic aspects of water usage, the study offers valuable insights into mitigating water scarcity challenges while maintaining productivity. These findings contribute to the development of strategic water conservation measures that can guide researchers, policymakers, and farmers in adopting sustainable and resilient farming practices.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	The title, " <i>Stability and Sustainability Indices and Mitigation Strategies for Water Conservation in relative to Fruit Crops,</i> " is appropriate and aligns with the study's scope. No changes are necessary	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	The abstract is appropriate and comprehensive.
