Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript highlights the level of nano urea input to improve strawberry yield. It then helps determine the quality of strawberries after applying variable doses of fertilizers. Finally, it helps determine the shelf life to avoid post-harvest losses.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	First of all, I suggest the author to delete the first sentence of his abstract. Also, the second sentence should be moved after the objective of the study. The results are not very well presented and the conclusion is not present either. Finally, I find that some non-useful keywords can be deleted like RDN, urea and Winter Dawn	
Is the manuscript scientifically, correct? Please write here.	There are sentence restructurings to be done to improve the scientific quality of this manuscript.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	yes	
Is the language/English quality of the article suitable for scholarly communications?	yes	
Optional/General comments	I suggest the author review the presentation of the tables (see examples of articles published in the journal) and the font size of the captions.	

PART 2:
