

Review Form 3

Journal Name:	Asian Research Journal of Arts & Social Sciences
Manuscript Number:	Ms_ARJASS_131289
Title of the Manuscript:	Navigating Dual Roles: A Study on the Competence and Academic Performance of Student Parents in Higher Education Institution
Type of the Article	Original Research Article

PART 1: Comments

	Reviewer's comment Artificial Intelligence (AI) generated or assisted review comments are strictly prohibited during peer review.	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The manuscript is delightful and significant indeed in the scientific community but there needs to explain and clarify many things so that it will be substantial in the research community. I like the manuscript due to the prospective and wide range applications in educational sector.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the paper is cleared and suitable but, I suggest that the author should clearly specific about the title based on the content of the research work. Because the title is showed that the respondents are female students but in the article content it shows both female and male students. The author should be specific about the category of the respondents.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	There is need for the author to introduce a brief concept of the educational system of the study area both previously and currently, The aim of the manuscript should be included and should be clear and concise. There is need for justification of this sentence: It was also revealed in the study that there was a significant negative relationship between level of competence and academic performance. Some of the keywords need to be include in the abstract such as emotional and cognitive competences or should be replace with other keywords.	
Is the manuscript scientifically, correct? Please write here.	The manuscript is scientifically and educationally correct. The research content is technically sound which tally with the current situation of the scientific community. The issues discussed in the manuscript are educational issues.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are recent but not sufficient. I suggested that, the author should add more references such as: M. T. Usman et al., (2016): Parents Socio-Economic Status and Students Academic Performance in Nigeria Educational System. International Journal of Education and Information Technology Vol. 2, No. 3, 2016, pp. 14-18http://www.aiscience.org/journal/ijeitISSN: 2381-7410 (Print); ISSN: 2381-7429 (Online). And find for more.	
Is the language/English quality of the article suitable for scholarly communications?	The manuscript language quality is good but it requires revision with respect to the language/English quality used for proper and scholarly communications. I therefore suggest that, the author ask a native English speaker or equivalent to assist him with correcting the spelling, grammar, word use, and punctuation throughout your manuscript.	
Optional/General comments	Basically, the technicality and content of this manuscript is well good and is very enthusiastic, but there is needs for the author to improve the writing skills of the manuscript especially all the parts highlighted with yellow color, the subtitles should be number such as 1. Introduction, 2. Materials and Methods etc Research questions should be included. At the end of introduction, the aim of the research should be clearly mentioned.	

Commented [L1]: How?

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
