<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	<b>The study can be useful for identifying the context and will be of use to health policy makers.</b>	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	<b>yes</b>	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	The abstract is long and does not include all the main sections. The study method described is not the same as what happened, and I did not see a mixed method in the study.	
<b>Is the manuscript scientifically, correct? Please write here.</b>	Did you mean cluster sampling in this study? Have the questionnaires used in the study been tested for validity and reliability? A code of ethics should be written. The results presented in the table should not be repeated in the text. Figures can be collected inside a table. Limitations should be written in scientific language. Were these limitations identified when the study began? What steps were taken to mitigate the limitations?	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	It is acceptable, but it can be improved	
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	It needs to be edited
