PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	It is an investigation of great importance to science, especially in phytomedicine and novel drug discovery. It will have a lot to contribute to the scientific society considering that the fruit is consumed globally and serves as natural sweetener in phyto-beverages.	
Is the title of the article suitable? (If not please suggest an alternative title)	I am ok with the title; it expresses what it wants or attempts to portray.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is concise, captures all segments, and is okay.	
Is the manuscript scientifically, correct? Please write here.	Yes, it is?	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are ok, just a little to be added in the paragraphs indicated in the review. I also recommend that more recent references be added to replace the old ones, to boost the acceptability of the study.	
Is the language/English quality of the article suitable for scholarly communications?	A lot of grammatical errors, I have been correcting but will really recommend that the author runs an English grammar check please.	
Optional/General comments	I have made comments on the review and would like the author to address these comments to elaborate and update on the topic and to bring the study to an in-depth study of great importance.
