### Review Form 3

#### PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript holds significant importance for the scientific community as it provides a comprehensive assessment of farm households' vulnerability to climate change in Samastipur, Bihar, a region highly dependent on agriculture and vulnerable to climatic shifts. By employing vulnerability indices and region-specific data, the study highlights the socio-economic and environmental factors exacerbating the challenges faced by these households. The findings offer critical insights into localized impacts of climate change, guiding policymakers in designing targeted adaptation strategies to enhance resilience. Furthermore, the study contributes to the broader discourse on sustainable rural development and climate adaptation in agriculturally intensive regions.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes Exposure Indicators Sensitivity Indicators Adaptive Capacity Indicators  All is correct	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Not Necessary. Abstract is appropriate.	
Is the manuscript scientifically, correct? Please write here.	Yes correct	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Not Needed. Abstract is appropriate	
Is the language/English quality of the article suitable for scholarly communications?	Good	
<u>Optional/General</u> comments	The manuscript provides a valuable analysis of the vulnerability of farm households to climate change in Samastipur, Bihar. It offers a well-structured approach to assessing the impacts of socio-economic and environmental factors, making it relevant to both regional and  global audiences. However, the authors are encouraged to ensure that the methodology is explained in sufficient detail and that the discussion section robustly connects findings to actionable policy recommendations. Additionally, careful proofreading for language and formatting consistency is advised to enhance the manuscript's readability and presentation.	

#### PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
