

### Review Form 3

Journal Name:	<a href="#">International Journal of Environment and Climate Change</a>
Manuscript Number:	Ms_IJECC_129896
Title of the Manuscript:	Soil Organic Carbon Dynamics Across Different Land Use Systems and Altitudinal Gradients in the North-Eastern Himalayas
Type of the Article	Original Research Article

#### **PART 1: Comments**

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	<ol style="list-style-type: none"> <li>1. This article is very important, especially as a reference material for researchers who focus on soil researchers, especially on land use and utilization</li> <li>2. This article is important, especially for the government in determining and taking policies, especially in drafting laws/government regulations on land use.</li> <li>3. This article is important as information material for other researchers.</li> </ol>	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the article suitable	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of the article is not comprehensive, there are still things that need to be added, namely it would be better to display/include the organic carbon content values of each land use system studied in the abstract and What is the basis for determining the positive correlation between elevation and subsidence with soil depth. Must be explained	
Is the manuscript scientifically, correct? Please write here.	This article is scientifically correct, but there are still some things that need to be completed so that this article is more scientifically correct.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are adequate, but not current, it is better to use the most recent references within the last 5 years.	
Is the language/English quality of the article suitable for scholarly communications?	The language/English quality of the article is suitable for scientific communication	
<b>Optional/General</b> comments	<p>Our suggestion: If we are entrusted to review an article, please send more than one article to be reviewed and continuously.</p> <p>Please provide 5-6 days to review the article.</p> <p>Thank you for your attention and cooperation</p>	

### Review Form 3

#### **PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
