Manuscript Number:	Ms_IJPR_125707
Title of the Manuscript:	Isolation, Identification, and Antibigram of Uropathogenic Escherichia coli Isolated from Ambulatory Patients with Suspected Cases of Urinary Tract Infection (UTI)
Type of the Article	

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	These type of studies are needed more as the prevalence of utis are in increasing to understand the local antibiograms of the organism and to start the empirical therapy . it will guide the clinicians in planning the treatment so that the complications can be prevented	
Is the title of the article suitable? (If not please suggest an alternative title)	Can be improved mainly discussed about e coli but mentioned about other organisms also	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes , no suggestions	
Are subsections and structure of the manuscript appropriate?	Yes except the part about other organisms	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript is well framed if possible mention about inclusion and exclusion criteria and also consider once alternate title if possible The study is very good as the utis are increasing in the current days and the resistance pattern also changing so these type of studies should be conducted at regular intervals	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes if possible mention them with superscript wherever possible	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Few errors only few spell checks and few places can use alternate words	
Optional/General comments	Suggestion were given with red letters in bracket	

Review Form 3
