

Review Form 3

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_130673
Title of the Manuscript:	Effect of Integrated Nitrogen Management and Sulphur Fertilization on Seed yield, Nutrient concentration and uptake and soil parameters of Sesame (Sesamum indicum L.) in semi-arid condition of Rajasthan
Type of the Article	

PART 1: Comments

	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	<p>The value of these studies cannot be understated. Each piece of research adds layers of understanding, which are critical for future breakthroughs.</p> <p>To the dedicated researchers: Your perseverance in exploring these topics is commendable. It's important to remember that every study, no matter how familiar the subject, builds the foundation for future innovations.</p> <p>The incremental advancements you contribute are like building blocks, essential for constructing a comprehensive understanding of agronomy forward.</p>	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Is the manuscript scientifically, correct? Please write here.	Yes	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	

Review Form 3

Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments	<p>Ok.</p> <p>Agronomy is a field that evolves through continuous exploration and refinement of existing knowledge. The value of these studies cannot be understated. Each piece of research adds layers of understanding, which are critical for future breakthroughs.</p> <p>To the dedicated researchers: Your perseverance in exploring these topics is commendable. It's important to remember that every study, no matter how familiar the subject, builds the foundation for future innovations. The incremental advancements you contribute are like building blocks, essential for constructing a comprehensive understanding of agronomy.</p> <p>Keep pushing forward with your research papers. Your work is not just relevant—it is crucial. The insights you uncover today could be the catalyst for tomorrow's agricultural advancements. Stay inspired by the potential impact of your contributions, and continue to drive the field forward.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
