Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Manuscript is relevant to scientific community	
Is the title of the article suitable? (If not please suggest an alternative title)	Title is suitable	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract is comprehensive but in conclusion for clarity it should be: There is a high burden of overweight/obesity, hypertension, and diabetes in PLWHA in two treatment centers in Fako Division. The expansion of HIV treatment programs must prioritize the initiation and strengthening of interventions aimed at minimizing preventable comorbidities and reducing the risks of non-communicable diseases (NCDs).	
Is the manuscript scientifically, correct? Please write here.	Yes it is scientifically correct but in background should add previous research documentation to back up prevalence of overweight/obesity, hypertension and diabetes and some risk factors after and state datas and associations if significant. In discussion please give clarity to these lines: Non-smokers were 11 times more likely to be overweight compared to smokers, contrasting findings in other studies linking smoking cessation to weight gain [34,35]. Non smokers are different from smokers who ceased. Find clearer previous research to support your findings.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References are sufficient and recent.	
Is the language/English quality of the article suitable for scholarly communications?	Suitable for scholarly communication.
