Title of the Manuscript:	Effect of Sarcoptic Mange on Haemato-biochemical Parameters
Type of the Article	Original Research Article

#### PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Nowadays, the relationship between humans and animals has increased, and this factor causes the spread of common diseases between humans and animals, so animal diseases should be paid attention to and investigated. Scabies have the possibility of being transmitted to humans, so examining scabies is of great importance.	
Is the title of the article suitable? (If not please suggest an alternative title)	The name of the study is not good; if the name of the example is changed, it will help in its visibility. It should be changed. I will tell you the new name:  One-year study of the effect of sarcoptic mange on hematobiochemical parameters in Mathura, India (2023-2024)	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	It is good.	
Is the manuscript scientifically, correct? Please write here.	It is good.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	2 new references need to be added. Please add these 2 new references:  Ghorbani A, Darmanloo E, Garedaghi Y, Jalali Niromand M. A one-month Survey on the infestation of Ixodidae (Acari: Ixodida) ticks collected from dogs in the Robat Karim region, Tehran Province, Iran. Archives of Razi Institute. 2024 Nov 11.  Ghorbani A. An overview of the science of parasitology simply for the general public. International Journal of Medical Parasitology and Epidemiology Sciences. 2023 Mar 29;4(1):12-8.	
Is the language/English quality of the article suitable for scholarly communications?	It is good.	
<u>Optional/General</u> comments	The only problem with this article is its title and the addition of the two new sources I mentioned. The author should also try to include several photos of the workplace and sick dogs in the article, which will help the article be better viewed.
