Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.		
Is the language/English quality of the article suitable for scholarly communications?		
Optional/General comments	<div>1. Title needs a modification as it is stated in your article discussion part that extracts using other polar solvents like ethanol the antioxidant findings are already established. Title should specify terms to show how your work stands different from what is reported earlier.</div> <div>2. There are many other uses for this plant that have not been specified in introduction part also it is not specified by naming the traditional systems of medicine.</div> <div>3. There seem to be a number of spelling mistakes which spell check etc can rectify so suggesting the use of same. Eg: Hydrolipidemic.</div> <div>4. Regarding the plant authentication, details like authentication number or specimen deposit number etc not provided.</div> <div>5. Year of study and details as to when the plant bark was collected not specified.</div> <div>6. In discussion part phytochemical analysis is counted as one of the three antioxidant methods which seems incorrect so rectify the same.</div>
