PART1:Comments

	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.		
Is the title of the article suitable? (If not please suggest an alternative title)		
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	It is a case report not a clinical study. Prepare an abstract accordingly. To correct grammar and spelling mistakes. Add few more keywords.	
Is the manuscript scientifically correct? Please write here.	Subheadings are not appropriate in methodology. Do not mention this as a study as this is a clinical case report. 2 postoperative images have been added in figure 3. Remove an image or add a suitable labelling for the other image as well.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References are not cited properly in the text. References to be cited in superscript manner. References to be uploaded in Vancouver style.	
Is the language/English quality of the article suitable for scholarly communications?	Corrections required.	
Optional/General comments
