

Review Form 3

Journal Name:	Journal of Advances in Medicine and Medical Research
Manuscript Number:	Ms_JAMMR_131147
Title of the Manuscript:	The Use of the National Stressful Events Survey Acute Stress Disorder Short Scale (NSESSS) to assess the Prevalence and Predictability of Acute Stress Disorder in Trauma Patients
Type of the Article	

PART 1: Comments

	<b>Reviewer's comment</b> Artificial Intelligence (AI) generated or assisted review comments are strictly prohibited during peer review.	<b>Author's Feedback</b> <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The author provides insight to the scientific community through highlighting the differences in diagnostic criteria between Acute Stress Disorder (ASD) and Post-traumatic stress disorder (PTSD). The article offers practitioners and researchers insight into the common factors of disorders and the importance of using the National Stressful Events Survey Acute Stress Disorder Short Scale (NSESSS)to help screen for ASD and as a tool for pre-emptive care from the development of PTSD.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is comprehensive.	
Is the manuscript scientifically, correct? Please write here.	The article is scientifically correct.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are sufficient and recent.	
Is the language/English quality of the article suitable for scholarly communications?	The language and English quality is exemplary and suitable for scholarly communication.	
Optional/General comments	The article was well written and insightful. The only suggestions I would offer are paragraph breaks on page 6, line 17 at "Studies have shown..."; P 6 line 24, "Medications such as.."; and P 6, line 37 "Unfortunately with trauma...".	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
