Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	In the current scenario of increased breast cancer cases across the globe and especially in sudan, this kind of manuscript is welcome .There is need for more data regarding cancer from developing countries.more such manuscripts covering various cancers would help in the challenges faced by the medical fraternity and the patients during the treatment.	
Is the title of the article suitable? (If not please suggest an alternative title)	Ye this would be appropriate	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	There are few points missed in the manuscript. 1)There was no mention about the day of collection of samples post chemotherapy as all the samples should be ideally collected in a time range.eg:- the sample collected within 3 days post chemotherapy may show different value for the same patient when it is collected around 10 to 14 days 2)There was no mention if GCSF was administered post chemotherapy 3)It is also interesting to note that RBC is low pre chemotherapy compared to control group	
Is the manuscript scientifically, correct? Please write here.	yes	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	yes	
Is the language/English quality of the article suitable for scholarly communications?	Language is adequate	
<u>Optional/General</u> comments	This is a good observational study. looking forward from authors to collect more data on follow up after few courses of chemotherapy and other long-term side effects of chemotherapy.  The manuscript maybe accepted
