TitleoftheManuscript:	“study of different decomposers with biochar in sugarcane trash management for enhancing ratoon sugar cane (saccharum officinarum. L ) yield”
TypeoftheArticle	ResearchArticle

PART1:Comments

	Reviewer’scomment	Author’s Feedback (Please correct the manuscript and highlight that part inthemanuscript.Itismandatorythatauthorsshouldwritehis/herfeedback here)
Pleasewriteafewsentencesregardingtheimportance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript highlights the importance of sustainable sugarcane trash management practices, demonstrating thattheuseofdecomposersandbiocharcansignificantlyenhanceratoonsugarcaneyield andimprovesoilhealth. The study's findings have significant implications for reducing the environmental and health impacts associated with burning sugarcane trash, while also increasing farmer profitability. By promoting eco-friendly trash management practices, this research can contribute to a more sustainable sugarcane industry, mitigating environmental degradation and promoting agricultural productivity. Overall, this study provides valuable insights forpolicymakers,farmers,andstakeholdersseekingtoadoptsustainablesugarcaneproductionpractices.
