PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript offers significant insights into the livelihood security of farmers in the Sultanpur region of Uttar Pradesh through an Integrated Farming Systems (IFS) approach. It addresses critical dimensions like economic, food, health, educational, and social security, providing a comprehensive understanding of the challenges faced by small and marginal farmers. The findings contribute to policy design aimed at improving agricultural and livelihood sustainability.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, the title is suitable and accurately reflects the study's content.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is well-written and covers the key aspects of the study. However, it could include more specific numerical findings, such as the Household Livelihood Security Index and individual indices, to make it more impactful.	
Is the manuscript scientifically, correct? Please write here.	Yes, the manuscript appears scientifically robust, with appropriate methodologies and clear results presentation.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are relevant, but additional citations from more recent studies (post-2020) on integrated farming systems and livelihood security could enhance the literature review.	
Is the language/English quality of the article suitable for scholarly communications?	The language is generally clear and suitable. Minor grammatical improvements and adjustments to sentence structure could further enhance readability.	
Optional/General comments	The study effectively highlights key areas of livelihood security, but a more detailed discussion on the policy implications of the findings would add value. Visual representations, such as charts or graphs for the indices, could also enhance the manuscript's readability.
