

Review Form 3

Journal Name:	Journal of Engineering Research and Reports
Manuscript Number:	Ms_JERR_129976
Title of the Manuscript:	AI-Powered Assistive Technologies for People with Disabilities: Developing AI solutions that aid individuals with various disabilities in daily tasks
Type of the Article	

PART 1: Comments

	Reviewer’s comment	Author’s Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	<ul style="list-style-type: none">Attention to disabled people is a necessary subject.A combination of AI and medical issues can be interesting.Attention to the capabilities of AI	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, it is.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	No, it is not. In the abstract, you need to consider the following structure: 1. Purpose 2. Methodology 3. Finding and results 4. conclusion	
Is the manuscript scientifically, correct? Please write here.	Yes, it is but there are some critical points of view.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes, but some of them need to be updated.	
Is the language/English quality of the article suitable for scholarly communications?	Yes, but there are some grammatical mistakes.	
Optional/General comments	<ol style="list-style-type: none">The keywords are too many. The ideal keywords are between 3 and 5. Please see the author's guidelines.Please proofread the paper before submission for possible mistakes, such as repeating Individuals in the seventh line after the introduction or ALSO>>>alsoAt the end of the introduction part, you need to point to the structure of the paper.Try to present different types of visual disabilities and auditory disabilities like hearing loss.In my opinion, at first please try to create a comprehensive standpoint about AI assistive for disabled people and then get right into each one in more detail.In academic journals, you should speak technical, not general. As a result, you need to turn the paper into a technical one.Please try to reorganize/ restructure the paper based on the authors’ guidelines.Some of the references are not for recent years. Please try to update them.
