

### Review Form 3

Journal Name:	<a href="#">Journal of Engineering Research and Reports</a>
Manuscript Number:	Ms_JERR_129976
Title of the Manuscript:	AI-Powered Assistive Technologies for People with Disabilities: Developing AI solutions that aid individuals with various disabilities in daily tasks
Type of the Article	Literature Review Article

#### PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The scientific community is increasingly interested in this area of research. The findings and recommendations will contribute significantly to the existing literature. The rapid application of AI in various fields also requires attention, particularly concerning individuals with disabilities.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, the title of the article is appropriate.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	There is a need to delete the word "also" from the first line of the abstract. Furthermore, a research methodology section should be included in the abstract.	
Is the manuscript scientifically, correct? Please write here.	A research methodology section should be included in the article. It is necessary to explain the procedure for collecting research data and analyzing the literature in detail. Additionally, a discussion section should be added before the conclusion. The implications of the study also require attention.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes, the research references are recent and sufficient.	
Is the language/English quality of the article suitable for scholarly communications?	The language used in the article is suitable for the scholarly community; however, proofreading is necessary.	
<b>Optional/General</b> comments	Add the research methodology section in detail. Additionally, include the discussion section supported by various research studies, and discuss the implications of the research.	

#### PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
