Review Form 3

Journal Name:	**Journal of Engineering Research and Reports**
Manuscript Number:	**Ms_JERR_131308**
Title of the Manuscript:	**Cloud Computing and Data Security: Addressing Data Privacy Concerns in Digital Currency Transactions**
Type of the Article	Research Article

	Reviewer's comment	Author's Feedback *(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	**This manuscript presents a comprehensive and well-researched study on cloud computing and data security, particularly focusing on data privacy concerns in digital currency transactions. The methodology is robust, employing quantitative research techniques such as regression modeling and time-series analysis, which provide empirical support for the findings.**	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, the title accurately reflects the core focus of the manuscript. It effectively captures the essence of the study, making it appealing to researchers and professionals in cybersecurity and digital finance.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, the abstract is well-structured, providing a clear summary of the research objectives, methodology, findings, and recommendations. No significant modifications are required.	
Is the manuscript scientifically, correct? Please write here.	Yes, the manuscript is scientifically robust, presenting well-supported arguments, empirical evidence, and relevant literature citations. The statistical analyses and data interpretations are logically sound.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes, the manuscript includes a comprehensive list of recent and relevant references, effectively supporting the research arguments. No additional references are necessary at this stage.	
Is the language/English quality of the article suitable for scholarly communications?	Yes, the manuscript is well-written with clear and concise language, making it suitable for scholarly communication. Minor grammatical improvements could enhance readability, but overall, the language quality is high.	
Optional/General comments	This manuscript contributes significantly to the field of cloud computing and cybersecurity by addressing critical security and privacy concerns in digital currency transactions. The practical implications and policy recommendations make it valuable for both academia and industry. The study could be further strengthened by incorporating real-world case studies demonstrating the implementation of AI and cryptographic solutions in digital financial security.	

Review Form 3

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
