Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Dental caries is a widely prevalent oral disease. Awareness about the cause and options in management need to well documented as the techniques are advancing .	
Is the title of the article suitable? (If not please suggest an alternative title)	Satisfactory	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Satisfactory	
Is the manuscript scientifically, correct? Please write here.	The manuscript seems to be a compilation of many articles that have already been published and the data is well known .In my view it can be improvised by adding newer advances in management and detection of dental caries and how AI or newer advances aid in the above aspect.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
Is the language/English quality of the article suitable for scholarly communications?	Satisfactory	
<u>Optional/General</u> comments	I request the author to kindly upgrade the article to newer advances in diagnosis , prevention and management and add more interesting facts about dental caries. In my opinion the section on periodontal diseases is too elaborate and may be cut down to endo perio lesions . The advanced classification of caries can also be added. The the progression of caries in primary and permanent teeth can also be briefed up
