

Review Form 3

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_130203
Title of the Manuscript:	Stability Evaluation of Acetylsalicylic Acid in Commercial Aspirin Tablets Under Different Storage Conditions
Type of the Article	Original Research Article

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This research is important concerning the stability of drugs and the probable toxic effects of any medicine. Depending upon various geological conditions it is required to prove the stability of medicine in varied environmental conditions.	
Is the title of the article suitable? (If not please suggest an alternative title)	The Title may be : Stability Studies of Aspirin Tablets Under Different Storage Conditions as per regulatory guidelines.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Whatever condition under study should be referenced to any regulatory guidelines.	
Is the manuscript scientifically, correct? Please write here.	Yes. If the manuscript also incorporates various regulatory guidelines like ICH to justify the acceptable criteria concerning the recovery and toxicity. Generally, when a product degrades it generates toxic chemicals that must be addressed.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	A more recent reference for the year at least 2023 should be referred to.	
Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments	All over manuscripts reflect the study. The work is an important work concerning domestic conditions. 1. Reference to the Analytical method should be incorporated. Which methods 1 and 2 should be mentioned? 2. Temperature and humidity must be combined. 3. No Information about U8 in Table 1 Light means which light?	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
