

### Review Form 3

Journal Name:	<a href="#">Journal of Scientific Research and Reports</a>
Manuscript Number:	Ms_JSRR_130974
Title of the Manuscript:	Characters association and selection criteria for irrigated ecosystem in rice ( <i>Oryza sativa</i> L.) genotypes
Type of the Article	Research article.

#### PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	This manuscript provides crucial insights into the genetic and phenotypic factors influencing rice yield, aiding the development of high-yielding cultivars. The findings will help breeders formulate effective selection criteria and breeding strategies, contributing to global food security. The study's identification of key traits for yield improvement underscores its significance for the scientific community	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	Yes	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	<b>Indeed, the abstract is comprehensive and effectively covers the key aspects of the study. My only suggestion is to make minor corrections in tense to ensure consistency and clarity that has been done with track changes on. Corrected in manuscript on second line in abstract.</b>	
<b>Is the manuscript scientifically, correct? Please write here.</b>	Yes	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	Fairly sufficient given the title of topic.	
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	Yes	
<b>Optional/General</b> comments	Technical sentences have been refined for precision, particularly in sections discussing indirect effects, where the use of "via" enhances understanding.	

#### PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
