

Review Form 3

Journal Name:	Microbiology Research Journal International
Manuscript Number:	Ms_MRJI_129862
Title of the Manuscript:	Evaluation of Anti-Malarial Profile of Methanol Leaf Extract of <i>Jatropha curcas</i> Linn on <i>Plasmodium berghei</i> Infection in Mice
Type of the Article	

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The study highlights the plant extract effect on malarial infection through several parameters to address this issue in a scientific manner. The candidate has put in a substantial amount of effort in carrying out this research and is commended for completing it.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, it is suitable. But it can the word profile be replaced with activity.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, it is comprehensive.	
Is the manuscript scientifically, correct? Please write here.	Yes, it is scientifically, but there some notes: 1- The first letter of (anopheles) is written in capital letter. 2- Delete the word (treatment) from title of subsection 2.3 and replace it with laboratory conditions. 3- Include the packed cell volume (PCV) with formula and rectal temperature procedures in MATERIALS AND METHODS as subsections to know how the tests conducted. 4- Why the PCV and rectal temperature results on day 0 and day 4 not include in the results? Also there isn't comparison between the measurements on day 0 and day 4. 5- Are the values ($p > 0.05$) in the subsection 3.5 correct? Explain that. 6- In the table 6, write PYR(Pyrimethamine), but in table 7 write CQ(Chloroquine) and why use Pyrimethamine in this test instead of Chloroquine? Explain that.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes, it is.	
Is the language/English quality of the article suitable for scholarly communications?	Yes, it is suitable.	
Optional/General comments	I value the work presented in this manuscript. With some improvements of the interpretation as suggested above, I believe the manuscript will be in a better form.	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
