Type of the Article	Original Research Article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The manuscript provides insight on the mediating and non-mediating factors influencing couples and non-couples' cooperative membership with reference to Nigeria. Development work has its roots hinged upon establishing local based organisations or cooperatives as there are the low hanging fruit towards sustainable interventions. The author closely examines the factors that affects participation by couples in such interventions to ensure that all programs are informed and factor in all those considerations.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title resonates well with the contents.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The article is comprehensive. I have inserted a suggestion on the conceptual framework to give it a clearer and simplified view for readers to comprehend. However, the author can still continue with the original conceptual framework as it also depicts the same.	
Is the manuscript scientifically, correct? Please write here.	The manuscript is wholesome and comprehensive. It makes use of a large number of observations which cements the findings.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References are recent. No suggestions so far.	
Is the language/English quality of the article suitable for scholarly communications?	The language and methodologies in the article are scholarly!	
Optional/General comments	I would be happy for collaboration to have an appreciation of the research instruments used and other variables collected so that we can see if there is an opportunity to develop another paper related to the thematic area of interest.
