Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This study is very good for explaining achievements and time comparisons. It will be a reference base in the present to improve quality and services in the future. With increasing challenges, it will certainly put pressure on the village to remain sustainable. In the future, in the same period, researchers can conduct a review to see the transformational changes in modern times.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title given is appropriate. However, the case study needs to be entered as well, such as the name of the district or state. This is because the study was conducted on respondents in the specified district only. It does not reflect the entire country.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The findings section should also include the basis of the study findings. Examples: this study found that the transformation changes in context of ..... (list down)	
Is the manuscript scientifically, correct? Please write here.	This study is in the form of a comparison. So, the entire article discusses the comparison of the past and the present. To make it appear more scientific, it can explain the relationship between indicators such as lifestyle and culture.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Good	
Is the language/English quality of the article suitable for scholarly communications?	Yes, good	
Optional/General comments	Apart from the effects of the transformation discussed, it is also necessary to discuss what the main factors are that contribute to the transformation. It can also be linked to economic factors, policies and local administration. Are there specific programs that support rural transformation? This discussion is included in the sub-topic of the study findings.
