

Review Form 3

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_126021
Title of the Manuscript:	Assessing chrysanthemum varietal performance and genetic variability under Jhalawar condition
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Understanding the variability present among the genotypes and to study the performance of different variety to know the best one I one of the important aspects to study in plant breeding programme to improve crop production and productivity of the area	
Is the title of the article suitable? (If not please suggest an alternative title)	In the title, The state or country where the research work is being performed needs to be mentioned	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	yes	
Are subsections and structure of the manuscript appropriate?	yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	In the reference section Baskaran et al is written as 2004 but in the context it is given 2010....Girahge et al ., 2016 or Girange et al 2016 correct that.....Kazemi, 2014 is not found in the context.....Kazemi, 2014 not found..... ANOVA table is not present in the study...No significance level has been shown in the table....the title has variability study but in the content there is no study of different variability calculation..... The conclusion part is very less it could be elaborated on how the study would be helpful for future researcher or in the area of research	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.		
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	The English quality can be improved	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	No issues
