Journal Name:	<a href="#">Journal of Complementary and Alternative Medical Research</a>
Manuscript Number:	Ms_JOCAMR_126109
Title of the Manuscript:	Medicinal Plants with Antimicrobial Potential Used in the Management of Mental Health Disorders: A Review
Type of the Article	Review Article

#### PART 1: Review Comments

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript highlights the importance of plants having antimicrobial properties in mental health. The concern here in my opinion, is that the linkage between these two aspects has not been explored in sufficient detail. Also, in the summary, the context changes to "antimicrobial and neuroprotective properties" instead of only "antimicrobial properties" as has been mentioned in the abstract and throughout the manuscript.	
Is the title of the article suitable? (If not please suggest an alternative title)	Alternative title suggestion "Role of plants having antimicrobial properties in the management of mental disorders"	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract requires an elaboration as to why specifically antimicrobial plants were considered to be evaluated for their potential use in mental health	
Are subsections and structure of the manuscript appropriate?	Largely, the structure and subsections seem appropriate.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	No significant scientifically wrong statement was observed. The claims made in this manuscript seem scientifically accurate. The content of the manuscript and the structure is technically sound with sufficient references made which further bolster the robustness.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Sufficient referencing is present in the manuscript.	

**Review Form 3**

Minor REVISION comments <b>Is the language/English quality of the article suitable for scholarly communications?</b>	<b>Although some areas may use paraphrasing, the overall quality of language for this article is acceptable for publication.</b>	
<b>Optional/General</b> comments	<b>The relation between gut and mental health, neuroprotective properties of antimicrobial drugs and their role on mental health can be further explored in more detail.</b>	

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
