

Review Form 3

Journal Name:	Journal of Scientific Research and Reports
Manuscript Number:	Ms_JSRR_126340
Title of the Manuscript:	Effects of bio-agents and selected botanicals on Alternaria leaf spot caused by Alternaria alternata (Fr.) Keissler in broccoli (Brassica oleracea var. italica L.)
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript is significant for the scientific community as it addresses the urgent need to control <i>Alternaria</i> leaf spot caused by <i>Alternaria alternata</i> on broccoli. The research offers insights into effective management strategies, which are essential for preserving broccoli. Economically, controlling this disease is crucial to safeguarding the livelihoods of farmers, preventing substantial agricultural losses, and ensuring the sustainability of broccoli production and productivity.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title is Okay.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is well written but needs a slight polishing to be more attractive and full informative to the readers.	
Are subsections and structure of the manuscript appropriate?	The subsections and the structures of the manuscript are appropriate but the numbering of the titles and subtitles needs to adhere the JSRR authors' guideline.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The findings offer valuable insights that can be readily implemented in real-world agricultural practices, especially in regions like Prayagraj, where organic broccoli farming is economically vital. This approach supports both the economic sustainability of local farmers and the broader goals of ecological preservation by minimizing chemical pesticide use.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. =	The majority of references are recent, but it needs some additional references. In addition, the author (s) should check whether all the listed references are cited in the in-text citation or not and the in-text citations cited in the manuscript are listed in the references lit.	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	The language needs publishing. Some of the words used are not English words and it should need to be converted to international (English) language. For example: the author used the word " <i>Rabi</i> ", which is an Indian word. Such type of words should be written in common English language throughout the manuscript.	
Optional/General comments	The language and all the comments given should be improved.	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
